## SUMMARY

Aspiring full-stack web developer with a strong foundation in HTML, CSS, JavaScript, and Python. Passionate about building responsive, user-friendly websites and exploring modern web technologies. Dedicated to continuous learning, creative problem-solving, and delivering clean, functional code. Currently pursuing B.Tech in Information Technology and actively developing personal projects to sharpen technical skills.

---

## TECHNICAL SKILLS

- **Programming Languages:** Java, Javascript, c, c++
- **Web Technologies:** HTML, CSS, React.js
- **Concepts:** OOPs, DSA, Responsive Design
- **Tools:** Git, Github, VS Code
- **soft skills:** Creativity, Time Management, Adaptability, Communication, Problem-Solving, Team Collaboration

---

## PROJECTS

### 1. Bubble Mind - Mental Wellness Chatbot

**Tech Stack:** HTML, JavaScript, CSS and python

- Developed a domain-specific chatbot focused on mental wellness, using Groq API, JavaScript, and Flask. Integrated features like chat history, emoji-based mood tracking, and a floating bubble voice assistant for better user engagement.
- Designed a soft pastel UI to promote calmness and emotional support. Implemented localStorage-based tracking and daily mood analysis to enhance user interaction and personalization.

### 2. Her Closet – Fashion E-Commerce Website

**Tech Stack:** HTML, CSS, JavaScript

- Designed and developed a fully responsive fashion store website featuring product listings, category filters, search functionality, and an elegant pastel UI for a modern shopping experience
